Thus these pills are at the same time a tonic and a cathartic, a desideratum long sought for by medical men, but never before discovered. In other words, they do the work of two medicine and do it much better than any two we know of, for they remove nothing from the system but impurities, so that while they purge they also strengthen and hence they cause no debility and are followed by no re-action.

they cause no debility and are followed by no re-action.

Dr. Turr's Pills have a wonderful influence on the blood. They not only purify without weakening it, but they remeve all noxious particles from the chyle before it is converted into fluid, and thus makes impure blood an uter impossibility. As there is no debilitation, so there is no nausea or sickness attending the opperation of this most excellent medicine, which nover strains or tortures the digestive organs, but causes them to work in a perfectly manner; hence persons taking them do not become pale and empolated, but on the contrary, while all impurities are being removed, the combined action of the Sarsaparella and Wild Cherry purifies and invigorates the body, and a robust state of health is the result of their united action.
